Disability in Canada, 2016 [General Population Sample]

Overview	
Type	Angus Reid Institute
Identification	ari-disability-E-2016-genpopsample
<p>Abstract Conducted in partnership with the Rick Hansen Foundation (http://www.rickhansen.com/), this survey examines awareness, perceptions, and attitudes regarding disability and accessibility in Canada. Angus Reid Institute (http://angusreid.org/) is a national, not-for-profit, non-partisan public opinion research organization.</p>	
Unit of Analysis	Individual

Scope & Coverage	
Keywords	Accessibility, Barriers, Blind, Disability, Discrimination, Hearing, Mobility, Physical disability, Visual impairment
Time Period(s)	2016
Countries	Canada
<p>Universe Individuals 18 years and older who are members of the Angus Reid Forum panel.</p>	

Producers & Sponsors	
Primary Investigator(s)	Angus Reid Institute
Other Producer(s)	Angus Reid Institute
Other Acknowledgment(s)	

Sampling
<p>Sampling Procedure 1330 Canadians adults were randomly selected from Angus Reid Forum panel members. This total was then augmented with an additional 206 Canadians who are Angus Reid Forum members and self-identify as having a physical disability or mobility challenge. This yielded a total of 493 respondents with physical disabilities or mobility challenges. For comparison purposes only, a probability sample of 1,330 would carry a margin of error of +/- 2.7 percentage points, and a probability sample of 493 would carry a margin of +/- 4.4 percentage points, 19 times out of 20. Discrepancies in or between totals are due to rounding.</p>

Data Collection	
Data Collection Dates	start 2016-10-31 end 2016-11-07
<p>Data Collection Notes Angus Reid Institute conducts its online research through the Angus Reid Forum.</p>

Group Built Environment

#	Name	Label	Type	Format	Valid	Invalid	Question
1	Q1_0	New Building: Energy efficient	discrete	numeric-1.0	1330	0	Suppose a new public building (such as a library, school, community centre, etc.) were being built in your community. How important would it be to you, personally, that this new building be... Energy efficient
2	Q1_1	New Building: Made of environmentally sustainable materials	discrete	numeric-1.0	1330	0	Suppose a new public building (such as a library, school, community centre, etc.) were being built in your community. How important would it be to you, personally, that this new building be... Made of environmentally sustainable materials
3	Q1_2	New Building: Accessible to people with physical disabilities	discrete	numeric-1.0	1330	0	Suppose a new public building (such as a library, school, community centre, etc.) were being built in your community. How important would it be to you, personally, that this new building

#	Name	Label	Type	Format	Valid	Invalid	Question
							be... Accessible to people with physical disabilities
4	Q1_3	New Building: Affordable to the taxpayer	discrete	numeric-1.0	1330	0	Suppose a new public building (such as a library, school, community centre, etc.) were being built in your community. How important would it be to you, personally, that this new building be... Affordable to the taxpayer
5	Q1_4	New Building: Family-friendly	discrete	numeric-1.0	1330	0	Suppose a new public building (such as a library, school, community centre, etc.) were being built in your community. How important would it be to you, personally, that this new building be... Family-friendly (i.e. change-tables in washrooms, parking for people with children, etc.)
6	Q1_5	New Building: Trans-inclusive	discrete	numeric-1.0	1330	0	Suppose a new public building (such as a library, school, community centre, etc.) were being built in your community. How important would it be to you, personally, that this new building be... Trans-inclusive (i.e. gender-neutral washrooms)
7	Q1_6	New Building: Architecturally interesting and attractive	discrete	numeric-1.0	1330	0	Suppose a new public building (such as a library, school, community centre, etc.) were being built in your community. How important would it be to you, personally, that this new building be... Architecturally interesting and attractive
8	Q2_0	New building - most important: Energy efficient	discrete	numeric-1.0	1330	0	And, which two from this list do you consider most important for new public buildings? Energy efficient
9	Q2_1	New building - most important: Made of environmentally sustainable materials	discrete	numeric-1.0	1330	0	And, which two from this list do you consider most important for new public buildings? Made of environmentally sustainable materials
10	Q2_2	New building - most important: Accessible to people with physical disabilities	discrete	numeric-1.0	1330	0	And, which two from this list do you consider most important for new public buildings? Accessible to people with physical disabilities
11	Q2_3	New building - most important: Affordable to the taxpayer	discrete	numeric-1.0	1330	0	And, which two from this list do you consider most important for new public buildings? Affordable to the taxpayer
12	Q2_4	New building - most important: Family-friendly	discrete	numeric-1.0	1330	0	And, which two from this list do you consider most important for new public buildings? Family-friendly (i.e. change-tables in washrooms, parking for people with children, etc.)
13	Q2_5	New building - most important: Trans-inclusive	discrete	numeric-1.0	1330	0	And, which two from this list do you consider most important for new public buildings? Trans-inclusive (i.e. gender-neutral washrooms)
14	Q2_6	New building - most important: Architecturally interesting and attractive	discrete	numeric-1.0	1330	0	And, which two from this list do you consider most important for new public buildings? Architecturally interesting and attractive

#	Name	Label	Type	Format	Valid	Invalid	Question
15	Q3	Familiar with LEED	discrete	numeric-1.0	1330	0	How familiar would you say you are with the LEED program? Would you say you:
16	Q4	View on LEED program	discrete	numeric-1.0	1330	0	Q4 question details

Group Personal experiences

#	Name	Label	Type	Format	Valid	Invalid	Question
1	Q5	Have physical disability	discrete	numeric-1.0	1330	0	Do you have what you consider to be a "physical disability"? Let's include here any significant mobility problems, whether experienced from birth or related to aging or injury, hearing or visual impairment, or anything else like this.
2	Q6	Family or friend has physical disability	discrete	numeric-1.0	1330	0	And, do any of your family or close friends have a physical disability?
3	Q7	Impact of physical disability	discrete	numeric-1.0	292	1038	Thinking about your own physical challenges or disability, what kind of an impact would you say this has on your own life and day-to-day activities? Would you say it has:
4	Q8_0	Challenge: Difficulty walking	discrete	numeric-1.0	292	1038	What kind of mobility or other physical, vision, or hearing challenge(s) do you have? (Please try to choose the option(s) that are closest to the type of challenge(s) you have, even if not an exact fit.) Difficulty walking
5	Q8_1	Challenge: Require a walker/cane/scooter	discrete	numeric-1.0	292	1038	What kind of mobility or other physical, vision, or hearing challenge(s) do you have? (Please try to choose the option(s) that are closest to the type of challenge(s) you have, even if not an exact fit.) Require a walker/cane/scooter
6	Q8_2	Challenge: Require a wheelchair	discrete	numeric-1.0	292	1038	What kind of mobility or other physical, vision, or hearing challenge(s) do you have? (Please try to choose the option(s) that are closest to the type of challenge(s) you have, even if not an exact fit.) Require a wheelchair
7	Q8_3	Challenge: Difficulty hearing /hard of hearing	discrete	numeric-1.0	292	1038	What kind of mobility or other physical, vision, or hearing challenge(s) do you have? (Please try to choose the option(s) that are closest to the type of challenge(s) you have, even if not an exact fit.) Difficulty hearing/hard of hearing
8	Q8_4	Challenge: Deaf	discrete	numeric-1.0	292	1038	What kind of mobility or other physical, vision, or hearing challenge(s) do you have? (Please try to choose the option(s) that are closest to the type of challenge(s) you have, even if not an exact fit.) Deaf
9	Q8_5	Challenge: Visually impaired	discrete	numeric-1.0	292	1038	What kind of mobility or other physical, vision, or hearing challenge(s) do you have? (Please try to choose the option(s) that are closest to the type of

#	Name	Label	Type	Format	Valid	Invalid	Question
							challenge(s) you have, even if not an exact fit.) Visually impaired
10	Q8_6	Challenge: Blind	discrete	numeric-1.0	292	1038	What kind of mobility or other physical, vision, or hearing challenge(s) do you have? (Please try to choose the option(s) that are closest to the type of challenge(s) you have, even if not an exact fit.) Blind
11	Q8_7	Challenge: Arthritis	discrete	numeric-1.0	292	1038	What kind of mobility or other physical, vision, or hearing challenge(s) do you have? (Please try to choose the option(s) that are closest to the type of challenge(s) you have, even if not an exact fit.) Arthritis
12	Q8_8	Challenge: Chronic pain or illness	discrete	numeric-1.0	292	1038	What kind of mobility or other physical, vision, or hearing challenge(s) do you have? (Please try to choose the option(s) that are closest to the type of challenge(s) you have, even if not an exact fit.) Chronic pain or illness
13	Q8_9	Challenge: Other	discrete	numeric-1.0	292	1038	What kind of mobility or other physical, vision, or hearing challenge(s) do you have? (Please try to choose the option(s) that are closest to the type of challenge(s) you have, even if not an exact fit.) Other (please specify)
14	Q8_10	Challenge: Other [text] [Full text available in Codebook]	discrete	character-255	46	-	What kind of mobility or other physical, vision, or hearing challenge(s) do you have? (Please try to choose the option(s) that are closest to the type of challenge(s) you have, even if not an exact fit.) Other (please specify) [text]

Group Attitudes

#	Name	Label	Type	Format	Valid	Invalid	Question
1	Q15_0	Issues - agree/disagree: Accessibility is a basic human right, not a privilege	discrete	numeric-1.0	1330	0	Here are some statements people might make about the issues we've been talking about in this survey. For each one, please indicate whether you agree or disagree, strongly or moderately. Accessibility for people with physical disabilities is a basic human right, not a privilege
2	Q15_1	Issues - agree/disagree: Making places accessible and barrier-free is a nice idea, but not worth the cost	discrete	numeric-1.0	1330	0	Q15_1 question details
3	Q15_2	Issues - agree/disagree: Canada should be a world leader in ensuring universal access to public places	discrete	numeric-1.0	1330	0	Here are some statements people might make about the issues we've been talking about in this survey. For each one, please indicate whether you agree or disagree, strongly or moderately. Canada should be a world leader in ensuring universal access to public places
4	Q15_3	Issues - agree/disagree: Should be a high priority to ensure everyone can fully participate	discrete	numeric-1.0	1330	0	Q15_3 question details
5	Q15_4	Issues - agree/disagree: Understandable employers feel it is risky to hire people with physical disabilities	discrete	numeric-1.0	1330	0	Here are some statements people might make about the issues we've been talking about in this survey. For each one, please indicate whether you agree or disagree, strongly or moderately. It's understandable that employers feel it is risky to hire people with physical disabilities
6	Q15_5	Issues - agree/disagree: Waste not to recognize and promote the potential of people with physical disabilities	discrete	numeric-1.0	1330	0	Here are some statements people might make about the issues we've been talking about in this survey. For each one, please indicate whether you agree or disagree, strongly or moderately. It's a waste not to recognize and promote the potential of people with physical disabilities
7	Q15_6	Issues - agree/disagree: Never notice disabled people using the disabled washroom or ramps etc	discrete	numeric-1.0	1330	0	Here are some statements people might make about the issues we've been talking about in this survey. For each one, please indicate whether you agree or disagree, strongly or moderately. I never notice any disabled people actually using the disabled washroom or ramps, etc.
8	Q15_7	Issues - agree/disagree: There is a lot of prejudice towards people with physical disabilities	discrete	numeric-1.0	1330	0	Here are some statements people might make about the issues we've been talking about in this survey. For each one, please indicate whether you agree or disagree, strongly or moderately.

#	Name	Label	Type	Format	Valid	Invalid	Question
							 There is a lot of prejudice towards people with physical disabilities
9	Q15_8	Issues - agree/disagree: Don't think about it	discrete	numeric-1.0	1330	0	Here are some statements people might make about the issues we've been talking about in this survey. For each one, please indicate whether you agree or disagree, strongly or moderately. I rarely think about people with physical disabilities in my day-to-day life
10	Q15_9	Issues - agree/disagree: Feel well informed	discrete	numeric-1.0	1330	0	Here are some statements people might make about the issues we've been talking about in this survey. For each one, please indicate whether you agree or disagree, strongly or moderately. I feel well-informed about the challenges people with physical disabilities face
11	Q16_0	Risky to hire: Expensive to make workplace accessible	discrete	numeric-1.0	1330	0	Q16_0 question details
12	Q16_1	Risky to hire: Many employers have no experience working with them	discrete	numeric-1.0	1330	0	Q16_1 question details
13	Q16_2	Risky to hire: Employee may take more sick days	discrete	numeric-1.0	1330	0	Q16_2 question details
14	Q16_3	Risky to hire: Employee may not fit in	discrete	numeric-1.0	1330	0	Q16_3 question details
15	Q16_4	Risky to hire: Some tasks may be too difficult	discrete	numeric-1.0	1330	0	Q16_4 question details
16	Q16_5	Risky to hire: Employee may work slower	discrete	numeric-1.0	1330	0	Q16_5 question details
17	Q16_6	Risky to hire: Other (Please specify)	discrete	numeric-1.0	1330	0	Q16_6 question details
18	Q16_7	Risky to hire: Other [text] [Full text available in Codebook]	discrete	character-142	36	-	Q16_7 question details
19	Q17	Deal more with business that hires people with physical disability	discrete	numeric-1.0	1330	0	Some companies make it a priority to recruit and hire people with physical disabilities. Suppose you knew of such a business near you. Would this have any impact on your dealings with that business?

Q1_0: New Building: Energy efficient

Information	[Type= discrete] [Format=numeric] [Range= 1-4] [Missing=*]
Statistics [NW/ W]	[Valid=1330 / 1330] [Invalid=0 / 0]
Pre-question	Let's begin with a few questions about architecture and design.
Literal question	Suppose a new public building (such as a library, school, community centre, etc.) were being built in your community. How important would it be to you, personally, that this new building be... Energy efficient

Value	Label	Cases	Weighted	Percentage (Weighted)
1	Not important at all	22	22.1	1.7%
2	Not that important	73	79.9	6.0%
3	Moderately important	451	465.0	35.0%
4	Very important	784	762.9	57.4%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

Q1_1: New Building: Made of environmentally sustainable materials

Information	[Type= discrete] [Format=numeric] [Range= 1-4] [Missing=*]
Statistics [NW/ W]	[Valid=1330 / 1330] [Invalid=0 / 0]
Pre-question	Let's begin with a few questions about architecture and design.
Literal question	Suppose a new public building (such as a library, school, community centre, etc.) were being built in your community. How important would it be to you, personally, that this new building be... Made of environmentally sustainable materials

Value	Label	Cases	Weighted	Percentage (Weighted)
1	Not important at all	41	37.7	2.8%
2	Not that important	194	187.0	14.1%
3	Moderately important	613	619.5	46.6%
4	Very important	482	485.8	36.5%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

Q1_2: New Building: Accessible to people with physical disabilities

Information	[Type= discrete] [Format=numeric] [Range= 1-4] [Missing=*]
Statistics [NW/ W]	[Valid=1330 / 1330] [Invalid=0 / 0]
Pre-question	Let's begin with a few questions about architecture and design.
Literal question	Suppose a new public building (such as a library, school, community centre, etc.) were being built in your community. How important would it be to you, personally, that this new building be... Accessible to people with physical disabilities

Value	Label	Cases	Weighted	Percentage (Weighted)
1	Not important at all	17	17.9	1.3%
2	Not that important	52	48.6	3.7%
3	Moderately important	359	364.0	27.4%
4	Very important	902	899.5	67.6%

File : AccessibilityDisability2016-GenPopSample-Public

Q1_3: New Building: Affordable to the taxpayer

Information	[Type= discrete] [Format=numeric] [Range= 1-4] [Missing=*]
Statistics [NW/ W]	[Valid=1330 / 1330] [Invalid=0 / 0]
Pre-question	Let's begin with a few questions about architecture and design.
Literal question	Suppose a new public building (such as a library, school, community centre, etc.) were being built in your community. How important would it be to you, personally, that this new building be... Affordable to the taxpayer

Value	Label	Cases	Weighted	Percentage (Weighted)
1	Not important at all	12	13.2	1.0%
2	Not that important	57	54.1	4.1%
3	Moderately important	355	357.9	26.9%
4	Very important	906	904.9	68.0%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

Q1_4: New Building: Family-friendly

Information	[Type= discrete] [Format=numeric] [Range= 1-4] [Missing=*]
Statistics [NW/ W]	[Valid=1330 / 1330] [Invalid=0 / 0]
Pre-question	Let's begin with a few questions about architecture and design.
Literal question	Suppose a new public building (such as a library, school, community centre, etc.) were being built in your community. How important would it be to you, personally, that this new building be... Family-friendly (i.e. change-tables in washrooms, parking for people with children, etc.)

Value	Label	Cases	Weighted	Percentage (Weighted)
1	Not important at all	59	59.7	4.5%
2	Not that important	146	137.7	10.4%
3	Moderately important	561	562.0	42.3%
4	Very important	564	570.6	42.9%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

Q1_5: New Building: Trans-inclusive

Information	[Type= discrete] [Format=numeric] [Range= 1-4] [Missing=*]
Statistics [NW/ W]	[Valid=1330 / 1330] [Invalid=0 / 0]
Pre-question	Let's begin with a few questions about architecture and design.
Literal question	Suppose a new public building (such as a library, school, community centre, etc.) were being built in your community. How important would it be to you, personally, that this new building be... Trans-inclusive (i.e. gender-neutral washrooms)

Value	Label	Cases	Weighted	Percentage (Weighted)
1	Not important at all	349	337.7	25.4%
2	Not that important	323	324.9	24.4%
3	Moderately important	392	402.6	30.3%

Information	[Type= discrete] [Format=numeric] [Range= 0-1] [Missing=*]
Statistics [NW/ W]	[Valid=1330 / 1330] [Invalid=0 / 0]
Pre-question	Let's begin with a few questions about architecture and design.
Literal question	And, which two from this list do you consider most important for new public buildings? Family-friendly (i.e. change-tables in washrooms, parking for people with children, etc.)

Value	Label	Cases	Weighted	Percentage (Weighted)
0	Not Selected	1079	1067.2	80.2%
1	Selected	251	262.8	19.8%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

Q2_5: New building - most important: Trans-inclusive

Information	[Type= discrete] [Format=numeric] [Range= 0-1] [Missing=*]
Statistics [NW/ W]	[Valid=1330 / 1330] [Invalid=0 / 0]
Pre-question	Let's begin with a few questions about architecture and design.
Literal question	And, which two from this list do you consider most important for new public buildings? Trans-inclusive (i.e. gender-neutral washrooms)

Value	Label	Cases	Weighted	Percentage (Weighted)
0	Not Selected	1260	1259.0	94.7%
1	Selected	70	71.0	5.3%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

Q2_6: New building - most important: Architecturally interesting and attractive

Information	[Type= discrete] [Format=numeric] [Range= 0-1] [Missing=*]
Statistics [NW/ W]	[Valid=1330 / 1330] [Invalid=0 / 0]
Pre-question	Let's begin with a few questions about architecture and design.
Literal question	And, which two from this list do you consider most important for new public buildings? Architecturally interesting and attractive

Value	Label	Cases	Weighted	Percentage (Weighted)
0	Not Selected	1140	1146.1	86.2%
1	Selected	190	183.9	13.8%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

Q3: Familiar with LEED

Information	[Type= discrete] [Format=numeric] [Range= 1-4] [Missing=*]
Statistics [NW/ W]	[Valid=1330 / 1330] [Invalid=0 / 0]
Pre-question	Let's begin with a few questions about architecture and design. LEED is short for "Leadership in Energy and Environmental Design". It is a series of standards and practices for maximizing the energy-efficiency and environmental sustainability of buildings. Buildings that meet these high standards are awarded varying levels of "LEED Certification" (gold/silver/etc.). LEED is not a government program. Buildings that participate in it do so voluntarily. The program is designed to be an incentive for building owners to increase their use of "green" building practices.

File : AccessibilityDisability2016-GenPopSample-Public

Q3: Familiar with LEED

Literal question How familiar would you say you are with the LEED program? Would you say you:

Value	Label	Cases	Weighted	Percentage (Weighted)
1	Are quite familiar with LEED	67	66.9	5.0%
2	Know a little bit about it	265	252.3	19.0%
3	Have only heard the name	197	201.6	15.2%
4	Have never heard of it until now	801	809.2	60.8%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

Q4: View on LEED program

Information [Type= discrete] [Format=numeric] [Range= 1-4] [Missing=*]

Statistics [NW/ W] [Valid=1330 / 1330] [Invalid=0 / 0]

Pre-question Let's begin with a few questions about architecture and design.
 LEED is short for "Leadership in Energy and Environmental Design". It is a series of standards and practices for maximizing the energy-efficiency and environmental sustainability of buildings. Buildings that meet these high standards are awarded varying levels of "LEED Certification" (gold/silver/etc.). LEED is not a government program. Buildings that participate in it do so voluntarily. The program is designed to be an incentive for building owners to increase their use of "green" building practices.

Literal question One idea that has been suggested is to have a program similar to LEED that would rate buildings on their accessibility for people with physical disabilities. Those buildings would be awarded varying levels of certification (gold/silver/etc.) for meeting or exceeding accessibility standards.
 Such a program would exist in addition to current building codes related to accessibility. Participation would be voluntary. The program would be designed as an incentive for building owners to increase the accessibility of their spaces.
 What are your views on such a program? Would you say a "LEED for accessibility" would be:

Value	Label	Cases	Weighted	Percentage (Weighted)
1	Definitely worthwhile	516	522.1	39.3%
2	Probably worthwhile	621	628.0	47.2%
3	Probably not worthwhile	151	139.0	10.4%
4	Definitely not worthwhile	42	41.0	3.1%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

Q5: Have physical disability

Information [Type= discrete] [Format=numeric] [Range= 1-3] [Missing=*]

Statistics [NW/ W] [Valid=1330 / 1330] [Invalid=0 / 0]

Literal question Do you have what you consider to be a "physical disability"? Let's include here any significant mobility problems, whether experienced from birth or related to aging or injury, hearing or visual impairment, or anything else like this.

Value	Label	Cases	Weighted	Percentage (Weighted)
1	Yes, I have a physical disability	117	116.7	8.8%
2	No, I do not have a physical disability	1038	1037.8	78.0%
3	I have mobility or other physical, vision or hearing challen	175	175.5	13.2%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

Q6: Family or friend has physical disability

Information [Type= discrete] [Format=numeric] [Range= 1-3] [Missing=*]

Statistics [NW/ W] [Valid=1330 / 1330] [Invalid=0 / 0]

Literal question And, do any of your family or close friends have a physical disability?

Value	Label	Cases	Weighted	Percentage (Weighted)
1	Yes, a physical disability	288	284.7	21.4%

File : AccessibilityDisability2016-GenPopSample-Public

Q6: Family or friend has physical disability

Value	Label	Cases	Weighted	Percentage (Weighted)
2	No, do not	841	840.9	63.2%
3	Mobility/physical challenges, but don't consider it a disability	201	204.4	15.4%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

Q7: Impact of physical disability

Information	[Type= discrete] [Format=numeric] [Range= 1-3] [Missing=*]
Statistics [NW/ W]	[Valid=292 / 292.179] [Invalid=1038 / 1037.821]
Universe	If 'Yes' to disability or challenge at Q5
Literal question	Thinking about your own physical challenges or disability, what kind of an impact would you say this has on your own life and day-to-day activities? Would you say it has:

Value	Label	Cases	Weighted	Percentage (Weighted)
1	Minimal impact - I do basically everything I want to without	86	90.3	30.9%
2	Moderate impact - I live comfortably, but some activities are	153	146.5	50.1%
3	Major impact - many day-to-day activities are a challenge for	53	55.4	19.0%
Sysmiss		1038	1037.8	

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

Q8_0: Challenge: Difficulty walking

Information	[Type= discrete] [Format=numeric] [Range= 0-1] [Missing=*]
Statistics [NW/ W]	[Valid=292 / 292.179] [Invalid=1038 / 1037.821]
Universe	If 'Yes' at Q5
Literal question	What kind of mobility or other physical, vision, or hearing challenge(s) do you have? (Please try to choose the option(s) that are closest to the type of challenge(s) you have, even if not an exact fit.) Difficulty walking

Value	Label	Cases	Weighted	Percentage (Weighted)
0	Not Selected	157	156.0	53.4%
1	Selected	135	136.1	46.6%
Sysmiss		1038	1037.8

# Q9_0: Improvement to barriers: Accessibility of public places				
Information	[Type= discrete] [Format=numeric] [Range= 1-5] [Missing=*]			
Statistics [NW/ W]	[Valid=1330 / 1330] [Invalid=0 / 0]			
Pre-question	We want to get people's views on the different barriers that might face people with physical disabilities. Now, when we refer to "people with physical disabilities" let's consider this broadly, and as including, for example, someone who is blind, hearing impaired, or who uses a wheelchair or has a significant mobility issue, and any other types of physical disability. By "barriers", we're referring broadly to anything that might be in the way or prevent someone's full participation in life.			
Literal question	Below is a list of different barriers that people with physical disabilities might face. In your opinion, to what extent is there room for improvement regarding each of the following different possible barriers facing people with physical disabilities in Canada today? Accessibility of public places			
Value	Label	Cases	Weighted	Percentage (Weighted)
1	Very little room for improvement	55	54.7	4.1%
2	A bit of room	140	135.3	10.2%
3	Some room	441	445.3	33.5%
4	A lot of room	426	423.3	31.8%
5	Huge room for improvement	268	271.3	20.4%
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>				
# Q9_1: Improvement to barriers: Equal access to health care				
Information	[Type= discrete] [Format=numeric] [Range= 1-5] [Missing=*]			
Statistics [NW/ W]	[Valid=1330 / 1330] [Invalid=0 / 0]

# Q9_5: Improvement to barriers: Transportation				
Statistics [NW/ W]		[Valid=1330 / 1330] [Invalid=0 / 0]		
Pre-question		We want to get people's views on the different barriers that might face people with physical disabilities. Now, when we refer to "people with physical disabilities" let's consider this broadly, and as including, for example, someone who is blind, hearing impaired, or who uses a wheelchair or has a significant mobility issue, and any other types of physical disability. > By "barriers", we're referring broadly to anything that might be in the way or prevent someone's full participation in life.		
Literal question		Below is a list of different barriers that people with physical disabilities might face. In your opinion, to what extent is there room for improvement regarding each of the following different possible barriers facing people with physical disabilities in Canada today? Transportation		
Value	Label	Cases	Weighted	Percentage (Weighted)
1	Very little room for improvement	56	56.4	 4.2%
2	A bit of room	122	119.0	 8.9%
3	Some room	414	414.3	 31.1%
4	A lot of room	453	446.4	 33.6%
5	Huge room for improvement	285	294.0	 22.1%
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>				
# Q9_6: Improvement to barriers: Discrimination				
Information		[Type= discrete] [Format=numeric] [Range= 1-5] [Missing=*]		
Statistics [NW/ W]		[Valid=1330 / 1330] [Invalid=0 / 0]		
Pre-question		We want to get people's views on the different barriers that might face people with physical disabilities. Now, when we refer to "people with physical disabilities" let's consider this broadly, and as including, for example, someone who is blind, hearing impaired, or who uses a wheelchair or has a significant mobility issue, and any other types of physical disability. > By "barriers", we're referring broadly to anything that might be in the way or prevent someone's full participation in life.		
Literal question		Below is a list of different barriers that people with physical disabilities might face. In your opinion, to what extent is there room for improvement regarding each of the following different possible barriers facing people with physical disabilities in Canada today? Discrimination towards people with disabilities		
Value	Label	Cases	Weighted	Percentage (Weighted)
1	Very little room for improvement	68	67.6	 5.1%
2	A bit of room	132	130.0	 9.8%
3	Some room	394	390.2	 29.3%
4	A lot of room	427	429.3	 32.3%
5	Huge room for improvement	309	312.9	 23.5%
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>				
# Q9_7: Improvement to barriers: Lack of understanding of the needs				
Information		[Type= discrete] [Format=numeric] [Range= 1-5] [Missing=*]		
Statistics [NW/ W]		[Valid=1330 / 1330] [Invalid=0 / 0]		
Pre-question		We want to get people's views on the different barriers that might face people with physical disabilities. 3	3	5	3.7	0.3%
4	4	15	16.5	1.2%
5	5	62	61.9	4.7%
6	6	49	47.4	3.6%
7	7	74	73.3	5.5%
8	8	112	108.6	8.2%
9	9	160	157.8	11.9%
10	10 Completely accessible to everyone	847	855.6	64.3%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

Q11_7: Accessibility - should be: Your own community's overall accessibility

Information [Type= discrete] [Format=numeric] [Range= 1-10] [Missing=*]

Statistics [NW/ W] [Valid=1330 / 1330] [Invalid=0 / 0]

Literal question And, how accessible do you think each of these same situations should be for people with physical disabilities?
 Let's use a scale of 1 to 10 where 1 means "not at all accessible" and 10 means "completely accessible to everyone regardless of physical disability". Of course, you can choose any number in between that best expresses your view.
 Your own community's overall accessibility

Interviewer's instructions Always place last in series

Value	Label	Cases	Weighted	Percentage (Weighted)
1	1 Not at all accessible	2	1.4	0.1%
2	2	4	4.1	0.3%
3	3	10	9.5	0.7%

Q11_7: Accessibility - should be: Your own community's overall accessibility

Value	Label	Cases	Weighted	Percentage (Weighted)
4	4	13	12.1	0.9%
5	5	79	80.5	6.1%
6	6	50	48.6	3.7%
7	7	92	91.3	6.9%
8	8	188	180.8	13.6%
9	9	221	219.8	16.5%
10	10 Completely accessible to everyone	671	682.0	51.3%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

Q12_0: Reason for gap: Too expensive

Information	[Type= discrete] [Format=numeric] [Range= 0-1] [Missing=*]			
Statistics [NW/ W]	[Valid=1330 / 1330] [Invalid=0 / 0]			
Literal question	Past research has shown a significant gap between how accessible Canadians think their communities should be and how accessible they think their communities actually are. What do you think are the main reasons for this gap? Please choose up to two from the list that follows, or write in your own. Too expensive			
Value	Label	Cases	Weighted	Percentage (Weighted)
0	Not Selected	861	867.2	65.2%
1	Selected	469	462.8	34.8%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

Q12_1: Reason for gap: Older buildings/hard to renovate

Information	[Type= discrete] [Format=numeric] [Range= 0-1] [Missing=*]			
Statistics [NW/ W]	[Valid=1330 / 1330] [Invalid=0 / 0]			
Literal question	Past research has shown a significant gap between how accessible Canadians think their communities should be and how accessible they think their communities actually are. What do you think are the main reasons for this gap? Please choose up to two from the list that follows, or write in your own. Older buildings/hard to renovate			
Value	Label	Cases	Weighted	Percentage (Weighted)
0	Not Selected	717	722.1	54.3%
1	Selected	613	607.9	45.7%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

Q12_2: Reason for gap: Not enough demand/need for accessibility

Information	[Type= discrete] [Format=numeric] [Range= 0-1] [Missing=*]			
Statistics [NW/ W]	[Valid=1330 / 1330] [Invalid=0 / 0]			
Literal question	Past research has shown a significant gap between how accessible Canadians think their communities should be and how accessible they think their communities actually are. What do you think are the main reasons for this gap? Please choose up to two from the list that follows, or write in your own. Not enough demand/need for accessibility			
Value	Label	Cases	Weighted	Percentage (Weighted)
0	Not Selected	1156	1154.1	86.8%
1	Selected	174	175.9	13.2%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

Q12_3: Reason for gap: Not a priority in Canada

Information	[Type= discrete] [Format=numeric] [Range= 0-1] [Missing=*]
Statistics [NW/ W]	[Valid=1330 / 1330] [Invalid=0 / 0]
Literal question	Past research has shown a significant gap between how accessible Canadians think their communities should be and how accessible they think their communities actually are. What do you think are the main reasons for this gap? Please choose up to two from the list that follows, or write in your own. Not a priority in Canada

Q12_3: Reason for gap: Not a priority in Canada

Value	Label	Cases	Weighted	Percentage (Weighted)
0	Not Selected	1233	1234.7	92.8%
1	Selected	97	95.3	7.2%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

Q12_4: Reason for gap: Governments don't enforce

Information	[Type= discrete] [Format=numeric] [Range= 0-1] [Missing=*]
Statistics [NW/ W]	[Valid=1330 / 1330] [Invalid=0 / 0]
Literal question	Past research has shown a significant gap between how accessible Canadians think their communities should be and how accessible they think their communities actually are. What do you think are the main reasons for this gap? Please choose up to two from the list that follows, or write in your own. Governments don't enforce

Value	Label	Cases	Weighted	Percentage (Weighted)
0	Not Selected	1063	1059.8	79.7%
1	Selected	267	270.2	20.3%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

Q12_5: Reason for gap: Builders don't make it a priority

Information	[Type= discrete] [Format=numeric] [Range= 0-1] [Missing=*]
Statistics [NW/ W]	[Valid=1330 / 1330] [Invalid=0 / 0]
Literal question	Past research has shown a significant gap between how accessible Canadians think their communities should be and how accessible they think their communities actually are. What do you think are the main reasons for this gap? Please choose up to two from the list that follows, or write in your own. Builders don't make it a priority

Value	Label	Cases	Weighted	Percentage (Weighted)
0	Not Selected	1057	1056.1	79.4%
1	Selected	273	273.9	20.6%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

Q12_6: Reason for gap: Accessibility not fully understood

Information	[Type= discrete] [Format=numeric] [Range= 0-1] [Missing=*]
Statistics [NW/ W]	[Valid=1330 / 1330] [Invalid=0 / 0]
Literal question	Past research has shown a significant gap between how accessible Canadians think their communities should be and how accessible they think their communities actually are. What do you think are the main reasons for this gap? Please choose up to two from the list that follows, or write in your own. Accessibility not fully understood

Value	Label	Cases	Weighted	Percentage (Weighted)
0	Not Selected	893	886.1	66.6%
1	Selected	437	443.9	33.4%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

Q12_7: Reason for gap: Other (Please specify)

Information	[Type= discrete] [Format=numeric] [Range= 0-1] [Missing=*]
Statistics [NW/ W]	[Valid=1330 / 1330] [Invalid=0 / 0]
Literal question	Past research has shown a significant gap between how accessible Canadians think their communities should be and how accessible they think their communities actually are. What do you think are the main reasons for this gap? Please choose up to two from the list that follows, or write in your own. Other (please specify)

Value	Label	Cases	Weighted	Percentage (Weighted)
0	Not Selected	1309	1307.4	98.3%
1	Selected	21	22.6	1.7%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

# Q12_8: Reason for gap: Q12_8_other [Full text available in Codebook]				
Information		[Type= discrete] [Format=character] [Missing=*]		
Statistics [NW/ W]		[Valid=21 / 22.603]

# Q12_8: Reason for gap: Q12_8_other [Full text available in Codebook]				
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>				
# Q13: Level of accessibility that should exist				
Information		[Type= discrete] [Format=numeric] [Range= 1-4] [Missing=*]		
Statistics [NW/ W]		[Valid=1330 / 1330] [Invalid=0 / 0]		
Literal question		Thinking of public spaces in general in Canada today - such as these ones we've been considering, what is your overall view about the level of accessibility that should exist for people with physical disabilities? Would you say the goal should be:		
Value	Label	Cases	Weighted	Percentage (Weighted)
1	Universal accessibility for everyone whenever this is possib	761	766.6	57.6%
2	Access should be a priority, but with cost feasibility in mi	462	455.6	34.3%
3	Consider access issues, but not a priority	71	71.0	5.3%
4	Do what is easily possible, and that's all that should be ex	36	36.8	2.8%
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>				
# Q14: Places difficult for person with disability				
Information		[Type= discrete] [Format=numeric] [Range= 1-4] [Missing=*]		
Statistics [NW/ W]		[Valid=1330 / 1330] [Invalid=0 / 0]		
Literal question		In the last six months, have you noticed any places in your local community that you thought would be particularly difficult for a person with a mobility challenge or other physical disability to navigate?		
Value	Label	Cases	Weighted	Percentage (Weighted)
1	No, haven't noticed any	686	688.8	51.8%
2	Yes, one place	153	151.5	11.4%
3	Yes, a few places	380	372.8	28.0%
4	Yes, I notice them all the time	111	116.9	8.8%
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>				
# Q15_0: Issues - agree/disagree: Accessibility is a basic human right, not a privilege				
Information		[Type= discrete] [Format=numeric] [Range= 1-4] [Missing=*]		
Statistics [NW/ W]		[Valid=1330 / 1330] [Invalid=0 / 0]		
Literal question		Here are some statements people might make about the issues we've been talking about in this survey. For each one, please indicate whether you agree or disagree, strongly or moderately. Accessibility for people with physical disabilities is a basic human right, not a privilege		
Value	Label	Cases	Weighted	Percentage (Weighted)
1	Strongly Disagree	29	30.0	2.3%
2	Disagree	85	72.4	5.4%
3	Agree	540	538.3	40.5%
4	Strongly Agree	676	689.2	51.8%
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>				
# Q15_1: Issues - agree/disagree: Making places accessible and barrier-free is a nice idea, but not worth the cost				
Information		[Type= discrete] [Format=numeric] [Range= 1-4] [Missing=*]		
Statistics [NW/ W]		[Valid=1330 / 1330] [Invalid=0 / 0]		
Literal question		Here are some statements people might make about the issues we've been talking about in this survey. For each one, please indicate whether you agree or disagree, strongly or moderately. Making places accessible and barrier-free for people with physical disabilities is a nice idea, but not worth the cost		
Value	Label	Cases	Weighted	Percentage (Weighted)
1	Strongly Disagree	402	414.2	31.1%

Q15_1: Issues - agree/disagree: Making places accessible and barrier-free is a nice idea, but not worth the cost

Value	Label	Cases	Weighted	Percentage (Weighted)
2	Disagree	654	648.1	48.7%
3	Agree	207	204.0	15.3%
4	Strongly Agree	67	63.7	4.8%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

Q15_2: Issues - agree/disagree: Canada should be a world leader in ensuring universal access to public places

Information	[Type= discrete] [Format=numeric] [Range= 1-4] [Missing=*]
Statistics [NW/ W]	[Valid=1330 / 1330] [Invalid=0 / 0]
Literal question	Here are some statements people might make about the issues we've been talking about in this survey. For each one, please indicate whether you agree or disagree, strongly or moderately. Canada should be a world leader in ensuring universal access to public places

Value	Label	Cases	Weighted	Percentage (Weighted)
1	Strongly Disagree	36	33.7	2.5%
2	Disagree	127	119.6	9.0%
3	Agree	668	674.4	50.7%
4	Strongly Agree	499	502.4	37.8%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

Q15_3: Issues - agree/disagree: Should be a high priority to ensure everyone can fully participate

Information	[Type= discrete] [Format=numeric] [Range= 1-4] [Missing=*]
Statistics [NW/ W]	[Valid=1330 / 1330] [Invalid=0 / 0]
Literal question	Here are some statements people might make about the issues we've been talking about in this survey. For each one, please indicate whether you agree or disagree, strongly or moderately. As a society, it should be a high priority to do whatever we can to ensure everyone can fully participate, regardless of whether or not they have a physical disability

Value	Label	Cases	Weighted	Percentage (Weighted)
1	Strongly Disagree	21	20.3	1.5%
2	Disagree	95	89.2	6.7%
3	Agree	639	633.9	47.7%
4	Strongly Agree	575	586.6	44.1%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

Q15_4: Issues - agree/disagree: Understandable employers feel it is risky to hire people with physical disabilities

Information	[Type= discrete] [Format=numeric] [Range= 1-4] [Missing=*]
Statistics [NW/ W]	[Valid=1330 / 1330] [Invalid=0 / 0]
Literal question	Here are some statements people might make about the issues we've been talking about in this survey. For each one, please indicate whether you agree or disagree, strongly or moderately. It's understandable that employers feel it is risky to hire people with physical disabilities

Value	Label	Cases	Weighted	Percentage (Weighted)
1	Strongly Disagree	194	190.1	14.3%
2	Disagree	477	472.1	35.5%
3	Agree	564	572.9	43.1%
4	Strongly Agree	95	94.8	7.1%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

Q15_5: Issues - agree/disagree: Waste not to recognize and promote the potential of people with physical disabilities

Information	[Type= discrete] [Format=numeric] [Range= 1-4] [Missing=*]
Statistics [NW/ W]	[Valid=1330 / 1330] [Invalid=0 / 0]

Q15_5: Issues - agree/disagree: Waste not to recognize and promote the potential of people with physical disabilities

Literal question Here are some statements people might make about the issues we've been talking about in this survey. For each one, please indicate whether you agree or disagree, strongly or moderately.
 It's a waste not to recognize and promote the potential of people with physical disabilities

Value	Label	Cases	Weighted	Percentage (Weighted)
1	Strongly Disagree	60	60.7	4.6%
2	Disagree	100	101.5	7.6%
3	Agree	732	721.3	54.2%
4	Strongly Agree	438	446.4	33.6%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

Q15_6: Issues - agree/disagree: Never notice disabled people using the disabled washroom or ramps etc

Information [Type= discrete] [Format=numeric] [Range= 1-4] [Missing=*]

Statistics [NW/ W] [Valid=1330 / 1330] [Invalid=0 / 0]

Literal question Here are some statements people might make about the issues we've been talking about in this survey. For each one, please indicate whether you agree or disagree, strongly or moderately.
 I never notice any disabled people actually using the disabled washroom or ramps, etc.

Value	Label	Cases	Weighted	Percentage (Weighted)
1	Strongly Disagree	266	276.5	20.8%
2	Disagree	624	611.4	46.0%
3	Agree	360	358.2	26.9%
4	Strongly Agree	80	83.8	6.3%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

Q15_7: Issues - agree/disagree: There is a lot of prejudice towards people with physical disabilities

Information [Type= discrete] [Format=numeric] [Range= 1-4] [Missing=*]

Statistics [NW/ W] [Valid=1330 / 1330] [Invalid=0 / 0]

Literal question Here are some statements people might make about the issues we've been talking about in this survey. For each one, please indicate whether you agree or disagree, strongly or moderately.
 There is a lot of prejudice towards people with physical disabilities

Value	Label	Cases	Weighted	Percentage (Weighted)
1	Strongly Disagree	41	43.7	3.3%
2	Disagree	331	319.4	24.0%
3	Agree	713	717.1	53.9%
4	Strongly Agree	245	249.8	18.8%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

Q15_8: Issues - agree/disagree: Don't think about it

Information [Type= discrete] [Format=numeric] [Range= 1-4] [Missing=*]

Statistics [NW/ W] [Valid=1330 / 1330] [Invalid=0 / 0]

Literal question Here are some statements people might make about the issues we've been talking about in this survey. For each one, please indicate whether you agree or disagree, strongly or moderately.
 I rarely think about people with physical disabilities in my day-to-day life

Value	Label	Cases	Weighted	Percentage (Weighted)
1	Strongly Disagree	195	196.3	14.8%
2	Disagree	464	463.0	34.8%
3	Agree	561	558.0	42.0%
4	Strongly Agree	110	112.7	8.5%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

# Q15_9: Issues - agree/disagree: Feel well informed				
Information		[Type= discrete] [Format=numeric] [Range= 1-4] [Missing=*]		
Statistics [NW/ W]		[Valid=1330 / 1330] [Invalid=0 / 0]		
Literal question		Here are some statements people might make about the issues we've been talking about in this survey. For each one, please indicate whether you agree or disagree, strongly or moderately. I feel well-informed about the challenges people with physical disabilities face		
Value	Label	Cases	Weighted	Percentage (Weighted)
1	Strongly Disagree	59	65.2	4.9%
2	Disagree	474	467.9	35.2%
3	Agree	650	656.3	49.3%
4	Strongly Agree	147	140.6	10.6%
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>				
# Q16_0: Risky to hire: Expensive to make workplace accessible				
Information		[Type= discrete] [Format=numeric] [Range= 0-1] [Missing=*]		
Statistics [NW/ W]		[Valid=1330 / 1330] [Invalid=0 / 0]		
Literal question		Regardless of whether you agree or disagree with the statement, "It's understandable that employers feel it is risky to hire people with physical disabilities," many people do feel this way. Please review the list below and select up to two main reasons you think some employers might feel it could be risky to hire people with physical disabilities. Expensive to make workplace accessible		
Value	Label	Cases	Weighted	Percentage (Weighted)
0	Not Selected	763	767.6	57.7%
1	Selected	567	562.4	42.3%
<i>Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.</i>				
# Q16_1: Risky to hire: Many employers have no experience working with them				
Information		[Type= discrete] [Format=numeric] [Range= 0-1] [Missing=*]		
Statistics [NW/ W]		[Valid=1330 / 1330] [Invalid=0 / 0]		
Literal question		Regardless of whether you agree or disagree with the statement, "It's understandable that employers feel it is risky to hire people with physical disabilities," many people do feel this way. Please review the list below and select up to two main reasons you think some employers might feel it could be risky to hire people with physical disabilities. Many employers have no experience working with them		
Value	Label	Cases	Weighted	Percentage (Weighted)
